Records Management and Information Practices
10920 Wilshire Blvd. Suite 500
Los Angeles, CA 90024

Dear Ms Beatty,

I recently received a letter from Linda Arqueta, Information Practices Office, informing me that you have no responsive records to my letter dated August 8th, 2005 letter requesting information pertaining to primate B15A.

I again request that you provide me with copies of documents containing the following information: all laboratory reports, protocols, daily care logs, veterinary reports, photographs, videotapes, and any and all other records referred to primate B15A, pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552.

I know this primate was assigned to you; please find attached a letter on UCLA's letterhead containing this primate's identification number.

Ms Beatty, if you can't provide the requested information yourself, I suggest that you find someone in authority who can. As I have been waiting since August for this information, I would appreciate a prompt reply, with the requested information and documents enclosed.

Sincerely,

Ngiare Elliot

Response to Jean Barnes Letters dated September 6, 2008

Status of each research subject

- Vervet #1996-022, Public Records Request of Marcelo E. Nasif:
We have confirmed that there are no responsive documents in our current or archived records for this subject. This non-human primate was housed at a facility other than UCLA.
- Vervet #1995-101 Public Records Request of Geraldine Teichelman:
We have confirmed that there are no responsive documents in our current or archived records for this subject. This non-human primate was housed at a facility other than UCLA.
- Primate B15A, Public Records Request of Ngiare Elliot.
The records regarding this subject were purged in accordance with UCLA's records retention policy and schedule, and were not available at the time of the request, August 8, 2005. There are no responsive documents in response to this request. This non-human primate is deceased.

died in 2002

retention policy in writing

writing

Requests were made by numerous PFP supporters who contacted UCLA but were told the primate on their Tag did not exist etc. However, these were bald-faced lies UCLA told the public to avoid providing the dirty details of what was happening inside the UCLA labs. UCLA moved their vervet colony just down the street to the Veteran's Hospital on Wilshire Blvd. and would claim they no longer had the vervets. However, USDA and VA administration confirmed UCLA would transport a monkey back to UCLA's lab to perform experiments.

Dear Linda,

Here is the information requested relative to the primates being used on the UCLA campus.

Rhesus	Fe	#788E	unknown*
Rhesus	Fe	#90B114	6/28/90
Rhesus	Fe	#28629	3/5/95
Rhesus	M	F494	5/10/85
Rhesus	M	CH732	1/1/85
Rhesus	M	28879	4/23/95
Rhesus	M	27887	6/7/93
Vervet	M	B08H	1991
Vervet	M	B15T	1992
Vervet	M	B08[1992
Vervet	M	B14B	1992
Vervet	M	B08G	1993
Vervet	M	B14N	1993
Vervet	M	B15A	1993
Vervet	M	B08O	1994
Vervet	M	B14!	1994
Vervet	M	B15\	1994
Vervet	M	B15:	1994

B15A...primate UCLA claims they never had and then, records were not "available" only after Tag holder proved UCLA had listed B15A on UCLA letterhead.

Please feel free to contact me if you need further information.

Sincerely,

P. Timothy Lawson, DVM, DAACLAM
